SUBHASHISH NAYAK

Software developer

Bhubaneswar, INDIA | Valid Passport & Willing to Relocate | nayaksubhashish456@gmail.com | LinkedIn | Github | Website

CAREER SUMMARY:

Frontend developer with over 1 years of Mern stack experience, specializing in building scalable, high-performance applications that enhance user experiences. Proficient in frontend development, with expertise in database management, delivering seamless and optimized end-to-end solutions.

SKILLS:

- Programming Languages: JavaScript/TypeScript, Java, Rust, MySQL, PostgreSQL
- Frameworks/Libraries: React.js, Next.js, Zustand, Tailwind CSS, Node.js, Express.js, MongoDB (Mongoose), MySQL
- Developer Tools: Git, Github/Gitlab, Docker, Kubernetes, PG Admin, Firebase, MongoDB, Jenkins
- Cloud Services: AWS (EC2, S3, Lambda, RDS), Azure (App Services, Azure Functions, Cosmos DB), GCP (Compute Engine, Firebase, Cloud Functions)
- * API & Databases: GraphQL, MySQL, PostgreSQL, MongoDB, Redis, REST API
- Design & Prototyping: Ant Design, Material-UI, Tailwind, Bootstrap, daisy UI

WORK EXPERIENCE:

Ceeras IT Services, india

Software Developer | Feb 2025 - Present

- Developed scalable full-stack applications using React.js, Next.js, and Node.js.
- Built and optimized RESTful APIs with MongoDB/PostgreSQL, improving data processing speed by 30%.
- Implemented CI/CD pipelines with Docker and Jenkins for smooth deployments.
- Enhanced system performance with Redis caching and asynchronous processing (RabbitMQ, Celery).
- Collaborated with cross-functional teams to align development with business goals.

Octanet, India

Junior Web Developer | June 2023 - Oct 2024

- Developed responsive React frontends with Redux/Zustand, improving user engagement by 15%.
- Designed and maintained secure Node.js/Express.js backends for various web applications.
- Worked with Substrate and Rust to integrate blockchain-based solutions.
- Delivered projects efficiently in a fast-paced startup environment under tight deadlines.

PROJECTS:

Technomania Labs: (Next.js, Tailwind CSS, MongoDB, Express.js, Node.js)

A comprehensive web platform designed for full-stack development learners, offering structured resources on modern technologies, frameworks, and real-world projects.

- Built with Next.js for optimized performance and MongoDB for efficient data handling.
- Features categorized learning modules covering React, Express.js, MySQL, Tailwind CSS, and more.
- Implemented a searchable knowledge base for easy access to documentation and tutorials.
- Future enhancements: Al-powered learning suggestions and interactive coding challenges.

Trident College Placement Portal Enhancement: (React.js, Tailwind CSS, Firebase)

An enhanced version of the official Trident Academy of Technology website, integrating placement updates

- Developed an interactive job and internship board for students to access verified placement
- Integrated a real-time notification system using Firebase to alert students about new job postings.
- Implemented a Smart Attendance Tracker using facial recognition to automate student attendance.
- Planned enhancements: Al-driven resume suggestions and a centralized student-employer dashboard.

EDUCATION:

2023 - 2025 | Trident Academy Of Technology

Master of Computer Applications | gpa-8.05

ADDITIONAL INFORMATION:

and smart attendance tracking.
